### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The instant amended claims are directed to a process of making a solid Ziegler-Natta procatalyst composition comprising the step of extracting the solid procatalyst composition by contacting a liquid diluent selected from a specified hydrocarbon groups at an elevated temperature from about 115°C to 200°C. The cited prior art such as Job (US 5,066,737) teaches the process of washing the Ziegler-Natta procatalyst with warm chlorobenzene and cool chlorobenzene and isooctane. However, the cited prior art does not teach or reasonably suggest to extract the procatalyst particle at temperature range of 115°C to 200°C. Therefore, the instant process claims are deemed to be novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
